## SKILLS

Software development

JavaScript

React JS

React native

Node.js

Firebase / GCP

MongoDB

Python

Flask

C#

Blockchain Development

Web3.js

Ether.js

Solidity

Smart Contract Auditing

Machine Learning Pipeline / Operations

Vertex AI

BigQuery

and more...

## WORK EXPERIENCE

### Software Engineer

#### MITA Games

11/2021 - Present

Remote (USA)

MITA Games is a Blockchain game studio and creator of Legends Of Mitra, a web3 play-to-earn mobile game, served on BSC & Klaytn blockchain networks.

##### Achievements/Tasks

- ▣ I built and I'm actively managing the entire frontend of the web3 portal used by over 90k users.
- ▣ I integrated the smart contract features on the web3 portal.
- ▣ I built and I'm actively managing MITA games mobile app used by thousands of users.
- ▣ **Links:** <https://mita.games> , <https://web3.legendsofmitra.com>
- ▣ **Technologies Used:** React, Node.js, Solidity, Web3.js, Caver.js, Jekyll, Jest, Capacitor.js, etc...

Contact : Kena - [hello@gemslab.io](mailto:hello@gemslab.io)

### Frontend Engineer

#### Stipple (formerly Friyay)

01/2020 - 07/2021

Remote (USA)

A web & mobile app dedicated to helping companies set goals, make plans, work together, and see progress.

##### Achievements/Tasks

- ▣ I built & improved over 30 project management tools used by over 10k businesses serving millions of users worldwide.
- ▣ The GIDBF tools I created resulted in a major spike in customer growth.
- ▣ I contributed to the build of a chat feature which helped the team migrate from Slack.
- ▣ Lots of other contributions to the team goals and motivation.
- ▣ **Links:** <https://www.stipple.me/>
- ▣ **Technologies Used:** React, React Native, Redux, GraphQL, Selenium, Jest, etc.

Contact : Joost Wentink - [joost@friyay.io](mailto:joost@friyay.io)

## WORK EXPERIENCE

### Founder / Software Engineer.

#### Off My Chest (OMC)

05/2020 - 11/2021

A mobile app for users to safely express themselves without fear of being judged. Available on all mobile app stores.

##### Achievements/Tasks

- ▣ I built and improved the entire project from scratch.
- ▣ I grew the customer base to a recurring 3k monthly active users.
- ▣ I gained a deep knowledge of team management, marketing and customer acquisition.
- ▣ **Links:** <https://omcmobile.app>
- ▣ **Technologies Used:** React Native, React, Firebase / GCP, Node.js, Python, Selenium.
